Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

Less than 3 comparables - Properties in Dunkeld that combine both a business and a residence rarely come to market, so there aren't really any recent comparable sales to go off. It's a pretty unique opportunity for the area. We came to the price based on earnings and comparable sales for the home next door - combined with discount to arrive at price.
