Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

There are zero properties due to the limited number of recent sales within the required 2km radius and six-month period that are sufficiently similar in terms of property type, land size, accommodation, quality and overall standard. This apartment is a ground floor apartment with a courtyard that faces south which has limited natural light as there is a building right next to it which cancels out natural light

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.

Sale price $820,000 Unconditional sale date 08/10/2026
