Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

There are no directly comparable sales considered suitable for this property due to its unique nature and high-value price point. The property was purchased approximately 10 years ago for around $3,000,000. Taking into consideration the historical purchase price, long-term market growth and recent market conditions, an estimated selling price range of $4,400,000 – $4,600,000 has been adopted.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
