Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

Only one directly comparable property has been identified within a 2 km radius due to the subject property’s unique configuration, which includes a detached bungalow providing additional accommodation separate from the main residence. As a result, the main dwelling has a smaller internal floor area than typical four-bedroom homes in the surrounding area, making most four-bedroom sales unsuitable for direct comparison

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
