Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

Given the unique nature of the target property, no directly comparable properties have been identified for the purposes of the PPS statement. This reflects the distinctive combination of attributes offered by the subject property, including its location, land holding, improvements, configuration, accommodation, presentation and overall utility. Limited properties within the relevant market offer a sufficiently similar combination of characteristics to provide a reliable like-for-like comparison. This limited availability of similarly positioned properties is relevant when interpreting the available market evidence and assessing the property's market position. While individual properties may share certain characteristics, differences in land size, location, improvements, condition, accommodation, configuration, access, development potential, zoning and utility can materially influence purchaser appeal and value. Properties that are only partially comparable have therefore not been treated as direct substitutes.
The assessment has been undertaken having regard to broader market evidence rather than relying upon a single

transaction. Relevant sales and listings have been considered according to their degree of similarity, with appropriate regard to material differences. Particular consideration has been given to the subject property's land holding, improvements, accommodation, configuration, location and overall utility. These attributes should be considered collectively when interpreting the available evidence and assessing the property's position relative to available alternatives. Accordingly, the assessment reflects the broader market evidence together with the individual characteristics of the subject property. The adopted assessment represents a considered market-based opinion that recognises the limited availability of direct comparable evidence while appropriately reflecting the property's distinctive market position.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
