Reason there are fewer than three comparable properties

- ☒ I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

The estate agent or agent's representative reasonably believes that fewer than three comparable properties were sold within 5 kilometres of the property for sale in the preceding 18 months.

Specifically, Amphitheatre is a small rural locality with extremely low annual transaction volumes. Furthermore, there is a scarcity of sales for substantial lifestyle acreage holdings (~20 acres / 8.09 ha) featuring self-sufficient infrastructure. The unique combination of a main residence with a detached secondary bungalow/studio, multiple dams, independent bore with desalination plant, solar/battery setup, and significant shedding creates a highly distinct rural property footprint. Standard residential township houses on small allotments or unimproved grazing land were excluded as they appeal to

entirely different buyer markets and fail to reflect accurate market value. Due to the specialised nature, land scale, and off-grid utility profile of this holding, no directly comparable sales exist within the statutory timeframe and geographic radius.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
