Reason there are fewer than three comparable properties

☐ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

We have reviewed recent market activity within Seabrook; however, there are no directly comparable sales within a 2km radius over the past six months that closely align with the subject property. Additionally, there are no recent transactions that closely match the property's configuration and can be relied upon as direct sales evidence.

The price change is based on current market conditions, with limited buyer interest and reduced inspection activity. Recent interest rate increases have also contributed to more cautious buyer behaviour and softer market conditions.

Taking these factors into consideration, together with the property's location, the owner's expectations, and prevailing market conditions, we estimate the subject property is likely to achieve a sale price in the range of **$880,000–$940,000**.

Sale Outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
