Reason there are fewer than three comparable properties for a unit type or class

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

There are not many blocks of units that have recently sold in Bell Park, that is why I have not managed to find 3 comparable sales. That being said, I have still found that these couple of sales that I have included are relevant.
