Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

There are no directly comparable sales available for 36 Tandarra Drive, Ringwood, due to the property's combination of five bedrooms, a swimming pool, a double lock-up garage and its land size and being a 2-story. The only broadly comparable sale identified is 2 Winscott Grove, Ringwood, which sold for \$2,200,000 in April 2026. Both properties feature five bedrooms, a double lock-up garage, a swimming pool and a very similar land size. However, 2 Winscott Grove is not considered a directly comparable property because it has three bathrooms, compared with 2 bathrooms at 36 Tandarra Drive. It is also a weatherboard home, whereas the subject property is of brick veneer construction.
