Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

There are no comparable sales to 1 Melville Avenue Frankston with 2 kilometers within the past 6 months. The location is beachside of Kars Street Frankston which is a highly desirable location and the block is 835 square meters with plans and engineering drawings completed and approved by council for 2 large duplex townhouses to be constructed. I have relied on my experience and what I believe a buyer would be prepared to pay for a property with these attributes.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
