Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Only one comparable property has been included in this assessment due to the limited number of recent sales within a 2km radius that closely match the subject property in terms of bedrooms, bathrooms, car accommodation and overall property characteristics.

This sale represents the most relevant available comparison based on its overall suitability. Other properties sold within the surrounding area were considered; however, significant differences in land size, accommodation and property features made them less appropriate for a direct comparison. These limitations have been taken into account when assessing the subject property's estimated market value.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
