Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

My agent and I have reviewed the available property sales within 2 kilometres of the subject property that have sold within the preceding 6 months.
After careful review the only considered comparable at this stage is 1/5 Tallowwood street, Frankston North, which is a 3 bed, 2 bath and 2 car unit as per the subject property. Although the comparable is rendered brick and superior in relation to land size and presentation, both homes are brick veneer, with hard wood floors.
Close to the Pines Forest Aquatic centre, local shops, public transport and minutes from the peninsula link, the

comparable is 0.4ks from the subject property, selling for \$675,000 in May this is a suitable comparable to the subject property as there are many similarities between both properties.

Mark has spoken with the Mother about the property needing a price reduction as the daughter is hard to get a hold of, the mother has so far advised Mark and myself that we should have this conversation mid-November.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
