Reason there are fewer than three comparable properties

- ☒ I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Only two comparable sales have been provided. 21 Somme Crescent is a two-year-old, double-storey home with 5 bedrooms, 2 bathrooms and a double garage, on 355m² (approx) of land with 251m² (approx) of internal living area. This combination is uncommon in the immediate area. Recent 5-bedroom sales nearby were either on substantially larger blocks (500m² or more) with larger internal areas and additional bathrooms, or were significantly older homes, and were therefore not considered reasonably comparable. The two sales selected are the closest match in age, land size and internal area, although both are 4-bedroom homes. No other recent sales within the relevant period and distance were sufficiently similar to include.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
