Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

Only one comparable property has been identified for the purposes of the PPS statement. While it provides useful evidence of current market conditions, purchaser behaviour and recent activity, the limited availability of properties with a sufficiently similar combination of characteristics means broader direct comparable evidence is not currently available. The identified comparable has therefore been considered as an important market reference rather than a direct equivalent to the subject property. Appropriate regard has been given to similarities between the properties, together with differences in location, land size, improvements, configuration, accommodation, condition, presentation, utility and other characteristics that may influence market appeal and value. The limited pool of directly comparable properties reflects the particular characteristics of the subject property and the availability of properties offering a similar overall combination of attributes. Its location, land component, improvements, configuration, accommodation and overall utility provide an

individual market offering and should be considered collectively when interpreting the available evidence. The comparable has been considered within the broader market context, together with other relevant sales and listings where they provide useful guidance. Particular consideration has been given to the subject property's overall offering and the way its attributes combine to influence market position and utility. The identified comparable provides a useful market anchor, while the broader evidence provides additional context. On this basis, the assessment represents a considered market-based opinion informed by the available evidence and the specific characteristics of the subject property, while recognising the limitations of the comparable evidence and the property's individual market position.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
