Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

There are only two directly comparable properties sold within the last 6 months and a 2km radius, considering the subject property's full-sized allotment, approximately 195m² internal floor area, single-story design, renovated interior and 5-bedroom plus study configuration. 58 Anthony Drive, Chirnside Park was also considered due to its location on the same street; however, it offers a smaller 4-bedroom configuration and remains unrenovated. While this sale provided relevant market evidence, it is not considered directly comparable due to these differences.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
